PROUDLY PRESENTED TO:

Prof. Dr. Ir. Bustari Hasan, M.Sc

PRESENTER

THE 9TH INTERNATIONAL AND NATIONAL WEBINAR
ON FISHERIES AND MARINE SCIENCE (ISFM 9)

“Fisheries and Marine Science for The Achievement
of SDG’s in Realizing Community Welfare”

Held by Faculty of Fisheries and Marine Science, Universitas Riau
September 10 - 11, 2020, Pekanbaru - Indonesia

DEAN

Prof. Dr. Ir. Bintal Amin, M.Sc

CHAIRMAN

Dr. Windarti, M.Sc

PREFACE

International and National Seminar on Fisheries and Marine Science (ISFM) is a regular activity that is held by the Fishery and Marine Science Faculty, Universitas Riau, Pekanbaru, Indonesia. This seminar has been conducted once/year since 2011 and aims to distribute the newest information on inland and marine fisheries in general. In this recent year, however, the world is facing the Covid 19 pandemic that causing travel restrictions as well as gathering activities and thus hampering the offline seminar activity. As the main target of the seminar is to distribute the new inland and marine fisheries related findings and information, conducting a virtual seminar is worth to achieve the goal instead of postponing or cancelling the seminar.

The virtual “The 9th International and National Seminar on Fisheries and Marine Science (ISFM9) 2020” was conducted on 10-11 September 2020 through a Zoom meeting and took its theme of “Fisheries and Marine Science for the Achievement of SDG’s in Realizing Community Welfare”.

The seminar was attended by 359 participants that are originated from 27 different locations, namely Universitas Brawijaya, Universitas Riau, Universitas Raja Maritim Ali Haji, Sekolah Tinggi Perikanan dan Kelautan Matauli, Institut Pertanian Bogor, Badan Riset dan Sumber Daya Manusia Kelautan dan Perikanan, Universitas Mulawarman, Kementerian Kelautan dan Perikanan (KKP), Lembaga Ilmu Pengetahuan Indonesia (LIPI), Universitas Pertahanan, Marine Fisheries Research Center, Universitas Gajah Mada, Universitas Andalas, Universiti Malaysia Sabah, King Abdul Azis City for Science and Technology of Saudi Arabia, Asian Institute of Technology Bangkok Thailand, University of San Agustin Iloilo City Philippines, Institut Teknologi Bandung, National Research and Development Agency Japan, Universitas Malikulsaleh, Mangrove Research Institute, Politeknik Bengkalis, Universitas Sumatera Utara, Balai Riset Perikanan Umum dan Penyuluhan Perikanan, Balai Besar Riset Sosial Ekonomi Kelautan dan Perikanan, Universitas Udayana and Universitas Sultan Ageng Tirtayasa.

The seminar was divided into 2 groups, the International and the National Seminars. The plenary session of each seminar was conducted in one meeting room. There were 5 and 6 keynote speakers for the International and National Seminars respectively and the talk was 20 minutes/speaker. The room was then divided into 6 parallel rooms (international seminar) and 4 parallel rooms (national seminar) and the talk was 8 minutes/person. The discussion was conducted virtually through “room chat” after the presenters finishing their talk.

So far, there was no major problem in conducting the virtual seminar and hopefully the main goal of the seminar which is sharing the newest information on inland and marine fisheries was achieved. As wide range of disciplines reflecting the vast area in fisheries and marine science are covered in this seminar, the information shared may also be involving a wide range of research and policy making for maintaining the sustainability of inland and marine fisheries in general.
